**BOWLS LAW:** During a game it begins to rain and several players leave the green seeking shelter. As the rain increases the umpire calls all players off but the skipper of Team A stays out there as he thinks it is only a short sharp shower and he is three shots up in the head believing his game can continue. Can he do this?

Answer: Under Law 32.2 he may stay on the green but the end must be declared dead as the umpire has stopped the game.
