**BOWLS LAW:** In a game of triples the lead of Team A rolls the jack to the middle of the rink and both leads deliver their first bowls when it is realised that the wrong player delivered the jack. The skip of Team B wants the end to be started again as he likes long ends. The skip of Team A objects as he is holding shot. What happens?

Answer: As both teams have delivered a bowl play continues in that order. Law 29.1.4
