BOWLS LAW: A player from Team A is using orange size 4 bowls on a fast green when it starts to rain heavily. After an hour the weather clears and everyone returns to play but the player is now playing with green size 3 bowls as he claims they go better on a heavy green. The Skip from Team B claims that Team A should forfeit the match as it is still the same game and they should be playing with the same bowls. Who is correct?

Answer: The skip from Team B. Law 29.3.1 says that if a player changes their bowls without one being damaged and continues to play his team must forfeit the match.
