BOWLS LAW: On a very fast green Team A brings the mat up to the 21 metre mark and rolls the jack onto the T. They then roll a bowl very close to the jack without touching it. In trying to move the bowl or jack all bowls roll past into the ditch. With his last bowl the skipper of team B drives the shot bowl into the ditch with his bowl going out of bounds. No bowls are left on the rink, only the jack. The third of team A declares the end dead but team B disagrees. Who is correct? Team B. It is a tied end with the end recorded but with no score. Law 21.1.3
