BOWLS LAW: The seconds in a triples game have removed two bowls from the head in scoring the shots when one skipper realises he has not played a bowl. He wants the seconds to replace the bowls in the head while he plays his shot. The opposing skip objects. Who is correct?

Answer: The opposing skip. Law 29.4.1 says that if the process of deciding the number of shots has started a player who has failed to play a bowl will lose that right.
