**BOWLS LAW:** The skip of team A is good friends with a player from team B and is loudly 'stirring' his opponent. The skip from team B objects and asked him to leave his player alone. Team A player claims he is only joking with his friend but the skip from team B calls the umpire. What does the umpire do?

Under law 13.3.1 The umpire warns the skip of team A that he must stop annoying any player in team B or the last bowl played by his team will be removed from the rink. If that bowl has disturbed the head the skip of team B may choose to a) replace the head b) leave the head as is or c) declare the end dead. If it is in a pennant match the Side Manager must also be informed.
