BOWLS LAW: Rules of Etiquette. These are just as important as the rules themselves as they help to make the game enjoyable for all players.

a. Before commencing a game all mobile phones, pagers and other electronic devices must be switched off or put in silent mode for the duration of a game. Music listening devices such as iPods should not be used during a game as this can be viewed as anti-social behaviour

b. Stand still and keep quiet when any player is on the mat. He wants to hear directions from the skipper and maintain his concentration. If it is the skipper on the mat he does not want to be distracted by players moving at the head.
