BOWLS LAW: In a game of pairs the seconds go the mat and Team A bowls first. As his bowl is halfway down the green the skip of team B says 'You've played out of order. We should have gone first'. The skip of Team A goes to stop the running bowl but the skip of Team B objects claiming the bowl should be left to finish. Who is correct?

Answer: Skip of Team B. Under law 29.1.1 he has the option of allowing the bowl to finish, sending it back, playing two bowls in succession or declaring the end dead.

wl falls, will count.
